DETAILED ACTION

Acknowledgement

1. Examiner acknowledges receipt of applicant's Amendment to the Claims and corrected Declaration (entered 10/11/06).

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-11 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The recitation "wherein the spring plate bypasses the chassis underframe" is not adequately supported by the disclosure as originally filed and as such is considered to be new matter.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1 and 8, as best understood, are rejected under 35 U.S.C. 102(b) as being anticipated by Pelz et al. (U.S. Patent 6,357,772).

Regarding claims 1 and 8, as best understood, Pelz discloses a wheel suspension system as in the present invention, comprising:

a lower link 1;

a spring 15 having a lower end and an upper end, the lower end of which is arranged on the link and the upper end of which is arranged in a spring plate (see annotation on Fig. 2 attached); and

a chassis underframe 6 having at a mounting 36, 37, and having at least one pair of bearings 7, 8;

wherein the spring plate bypasses the chassis underframe and directly engages the body of the vehicle;

wherein the lower link is designed as a transverse link.

Examiner notes that the recitation "for supporting ... vehicle" in claim 1 is functional language and further describes intended use, and as such does not serve to distinguish. Therefore, this limitation has not been given patentable weight.

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over Pelz et al. (U.S. Patent 6,357,772) in view of Martinez, Jr. et al. (U.S. Patent 4,771,996), previously cited by examiner.

Regarding claim 5, Pelz discloses the claimed invention except for a spring aid. Martinez, Jr. discloses that it is known in the art to provide a spring plate 24 combined with the support of a spring aid 28. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the spring plate of Pelz with the spring aid of Martinez, Jr., in order to provide a better seat for the spring against the spring plate.

8. Claim 6 is rejected under 35 U.S.C. 103(a) as being unpatentable over Pelz et al. (U.S. Patent 6,357,772) in view of Sautter et al. (U.S. Patent 4,671,531).

Regarding claim 6, Pelz does not specifically disclose the at least one pair of bearings of the chassis underframe being formed by elastomeric elements. Sautter discloses that it is known in the art to provide rubber bushings 9 for the chassis underframe 7'. It would have been obvious to one having ordinary skill in the art at the time the invention was made to replace the bearings 7, 8 of Pelz with the rubber bushings 9 of Sautter, in order to provide better damping of noise and vibrations.

Allowable Subject Matter

9. Claims 2-4, 7, and 9-11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the

Art Unit: 3616

limitations of the base claim and any intervening claims, and if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, as set forth in this Office action.

10. Claims 12 and 13 are allowed.

Response to Arguments

11. Applicant's arguments with respect to claims 1, 5, 6, and 8 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

12. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
